## Change Texts

This .PSD file has one yellow labeled layers called “YOUR DESIGN / TEXT HERE”. Right-click on that layer and select “Edit Contents”.

A new window will open and you’ll be able to replace the default text with yours. Then just need to save the document. If you go back to the original PSD, you’ll find the text effect has been applied to your text.

Depending on this text effect, You may find some orange labeled text layers.

To change these texts, all you have to do is to double-click on the thumbnail from the layers panel and put your text instead.

NOTE: The help file is designed to describe the general operation of mock. All products with this help file work in the same way. Therefore, the sample layer names in the presented screenshot maybe different from the names in the PSD file.
